About This Content

This Hired Sword is a **new Hero-type unit that can be recruited** to further customize your roster. The **Wolf-Priest of Ulric** is available for the **Sisters of Sigmar** and the **Human Mercenaries**.

Ulric is the god of wolves, war and winter. In some of the Northern provinces, he is venerated even above Sigmar by peasants and nobles alike. Those who enter his priesthood are fierce and hardened men, embodying the primal nature of their god. Grim warriors in their own right, these Priests are able to instill in their comrades the cold howl of Ulric, inspiring them to feats of bravery and savagery.

The Wolf-Priest of Ulric has access to a unique new set of skills and spells:

Active skills

- **Wild Swipe:** A melee attack that deals regular damage to enemies in an arc and cannot be parried. Only usable with Great Weapons.
- **Crush the Weak:** A melee attack that deals regular damage. If hit, the target gains a debuff that reduces Critical Resistance.
- **Alpha Howl:** Increases Initiative and Charge/Ambush range of allies around the Skill User.

Passive skills

- **Heart of the Wolf:** Increases the chance to pass All Alone, Fear, Terror, and Leadership tests.
- **Ulric's Chosen:** Increases Spellcasting chance and Critical Hit Damage.
- **Ulric's Fury:** After dealing melee Damage, Spell Damage increases.
- **Northern Tenacity:** After dealing melee damage, Critical Resistance increases.

Magic Spells

- **Ulric's Gift:** Increases melee Hit chance and melee Damage. Grants immunity to All Alone. Prevents the use of Flee, Disengage, and ranged attacks and skills.
- **Wild Pack:** Grants immunity to Fear and provokes Fear on engaged enemies, reducing melee Hit chance.
- **Howl of the Wolf:** Reduces the cost of Charge. When another ally is engaged with the same enemy, increases melee Hit chance and Critical hit chance.
- **Winter's Chill:** Enemies engaged with target receive a debuff that reduces melee Hit chance and melee Damage.
- **Snow King's Decree:** When target performs a melee or ranged attack, inflicts damage to itself. Priests of Ulric are immune.
- **Ice Storm:** Deals damage and reduces maximum and current Offense Points.
- **Frost's Bite:** Deals damage and reduces maximum Strategy Points. Bypasses Armour Absorption.
- **Blessing of Ulric:** Increases Melee Critical hit chance and Critical damage.

The Wolf-Priest of Ulric can also have access to the “**Righteous Fury**”, “**Divine Aegis**” and “**Absolute Faith**” Warband Skills of the Sisters of Sigmar and the “**Guard Stance**” Warband Skill of the Mercenaries.

Very fun retro game, check controls before you play to get most enjoyment.. A funny Short Silly Game with questions. really funny You just must try it!.
and my Score

Gameplay 8V10

Graphics 4V10

Sound 9V10. Just Get Through states it's main objective in the title

Just get through the level

It's a fun platformer with some modes to add to the difficulty as well as a daily challenge.

Not many people play this game so it's not hard to get to the top of the scoreboard as well, as this game isn't well known.

The game has many pluses and I can't think of something bad about the game except that there is a rare chance you'll be spawned in a randomly generated level with no way of winning, I've only heard about this and have yet to experience it.

The controls are tight, has customizable unlockable colour palets.

The game progressively gets harder the farther you get into the game that sometimes getting through the first level is literally walking or a single jump, but it eventually begins to turn itself into a maze to find the end of the level and increasing in difficulty as more and more obstacles get in your way like small corridors and buzzsaws or gattling guns on the walls that spray bullets at random intervals.

Overall I think you should buy this game if you like endless platforming challenge as well as your own custom levels and community made levels

9/10. Exellent Jump 'n Run with perfect Controls, awesome leveldesign and an incredible Soundtrack!

This is a Must-Have and a place in the Video-Game-Hall-of-Fame is ensured!. THE TUTORIAL IS TOO LONG. I love this game. A platformer with that randomizes and has upgrades.. I finally got the Golden God achievement so I feel its time to review this game.

This game is unforgiving and unresentful, the frist 10 hours of my playthrough were fun if not slightly hard. The other 50+ hours were the most painful gaming moments in my life. I only played this game to be better at it and kick its♥♥♥♥♥ I broke my mouse playing this game and usually play with a stress ball on my desk. I ♥♥♥♥♥ing hate this game more than anything but you definitely should buy it. This game will be good after a few updates.

And more structure and Translations.

Get it if you want to support the developers.

Dont get it if you want a completed game straight away.. This game is really good! Eventhough it's really freaking hard it's enjoyable especially with friends!

Having bought this cheap at the summer sale, I got my money's worth out of this game for sure.
I took me 5 hours for a normal run and enjoyed that time spent.

. Amazing game. I played through it several times. Well worth the time.. Super fun and addicting game! Well-worth the money!
The only problem is that once you exit the game, you must manually go into your task manager to close it. I hope they make a sequel with updated graphics, feature of blood and gore, and... TO BE ABLE TO 360 NO SCOPE THE F**KING SHARKS #420SMOKEWEEDEVERYDAY. Great game, lots of fun for a cheap price...a little bit too easy but you must try it.. Played this since i was a teenager. Fantastic game! Really great with a local-co-op player as well. I love how the camera works too!
